The use of these technology tools allows teachers to expand instructional methods and enhance instructional delivery, enrich student performance, and increase student engagement. Internet access is available to all students and teachers, offering a wide variety of educational opportunities. The school district is in compliance with the Children's Internet Protection Act and has installed technology protection measures for all computers in the school district, including computers in media centers/libraries that block and/or filter content.

Students will be educated throughout the school year on appropriate online behaviors, including how to properly access materials and how to interact with others accordingly.

As a school community, we invite families to consider the role media plays in your family. Portions of this agreement encourage students to maintain open communication with parents and to begin identifying limits for their own screen time usage. We encourage families to use this document periodically throughout the year to reinforce expectations in your own homes. As a school, we

recognize that our young students will make mistakes and we encourage students to be honest and open about these stumbles. We hope that your family will see the missteps our youngsters may make opportunities, not disappointments.
