## School Accountability Report Card

## Reported Using Data from the 2010-11 School Year

## Published During 2011-12

Every school in California is required by state law to publish a School Accountability Report Card (SARC), by February 1 of each year. The SARC contains information about the condition and performance of each California public school.

- For more information about SARC requirements, see the California Department of Education (CDE) SARC Web page at http://www.cde.ca.gov/ta/ac/sa/.
- For additional information about the school, parents and community members should contact the school principal or the district office.

## I. Data and Access

Ed-Data Partnership Web Site

Ed-Data is a partnership of the CDE, EdSource, and the Fiscal Crisis and Management Assistance Team (FCMAT) that provides extensive financial, demographic, and performance information about California's public kindergarten through grade twelve school districts and schools.

## DataQuest

DataQuest is an online data tool located on the CDE DataQuest Web page at http://dq.cde.ca.gov/dataquest/ that contains additional information about this school and comparisons of the school to the district, the county, and the state. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., state Academic Performance Index [API ], federal Adequate Yearly Progress [AYP]), test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners.

## Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

## III. School Climate

## School Safety Plan (School Year 2010-11)

Geyserville Educational Park provides a quality educational experience for all students in an exceptionally positive and safe learning environment. Students take part in keeping the grounds litter free and participate in school clean-up days. The comprehensive school plan includes an evacuation and drill manual, which is reviewed annually by all staff.
Inspections by the local fire chief takes place twice a year to address code compliance and assure that the facilities are safe for students, staff and others. Emergency kits have been supplied for each classroom and office area. Evacuation and fire drills are held at a minimum of one per quarter.

\section*{IX. Student Performance}

\section*{Standardized Testing and Reporting Program}

The Standardized Testing and Reporting (STAR) Program consists of several key components, including:
- California Standards Tests (CSTs), which include English-language arts (ELA) and mathematics in grades two through eleven; science in grades five, eight, and nine through eleven; and history-social science in grades eight, and nine through eleven.
- California Modified Assessment (CMA), an alternate assessment that is based on modified achievement standards in ELA for grades three through eleven; mathematics for grades three through seven, Algebra I, and Geometry; and science in grades five and eight, and Life Science in grade ten. The CMA is designed to assess those students whose disabilities preclude them from achieving grade-level proficiency on an assessment of the California content standards with or without accommodations.
- California Alternate Performance Assessment (CAPA), includes ELA and mathematics in grades two through eleven, and science for grades five, eight, and ten. The CAPA is given to those students with significant cognitive disabilities whose disabilities prevent them from taking either the CSTs with accommodations or modifications or the CMA with accommodations.

The assessments under the STAR Program show how well students are doing in relation to the state content standards.
On each of these assessments, student scores are reported as performance levels.

For detailed information regarding the STAR Program results for each grade and performance level, including the percent of students not tested, see the CDE STAR Results Web site at http://star.cde.ca.gov.

California High School Exit Examination

The California High School Exit Examination (CAHSEE) is primarily used as a graduation requirement. However, the grade ten results of this exam are also used to establish the percentages of students at three proficiency levels (not proficient, proficient, or advanced) in ELA and mathematics to compute AYP designations required by the federal ESEA, also known as NCLB.

For detailed information regarding CAHSEE results, see the CDE CAHSEE Web site at http://cahsee.cde.ca.gov/.

\section*{California Physical Fitness Test Results (School Year 2010-11)}

The California Physical Fitness Test (PFT) is administered to students in grades five, seven, and nine only. This table displays by grade level the percent of students meeting the fitness standards for the most recent testing period. For detailed information regarding this test, and comparisons of a school's test results to the district and state, see the CDE PFT Web page at http://www.cde.ca.gov/ta/tg/pf/.
\begin{tabular}{|l|r|r|r|}
\hline \multirow{2}{*}{ Grade Level } & \multicolumn{3}{|c|}{ Percent of Students Meeting Fitness Standards } \\
\cline { 2 - 5 } & Four of Six Standards & Five of Six Standards & Six of Six Standards \\
\hline \(\mathbf{5}\) & \(0.00 \%\) & \(0.00 \%\) & \(0.00 \%\) \\
\hline \(\mathbf{7}\) & \(0.00 \%\) & \(0.00 \%\) & \(0.00 \%\) \\
\hline \(\mathbf{9}\) & \(22.20 \%\) & \(22.20 \%\) & \(22.20 \%\) \\
\hline
\end{tabular}

Note: Scores are not shown when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

\section*{X. Accountability}

\section*{Academic Performance Index}

The Academic Performance Index (API) is an annual measure of state academic performance and progress of schools in California. API scores range from 200 to 1,000 , with a statewide target of 800 . For detailed information about the API, see the CDE API Web page at http://www.cde.ca.gov/ta/ac/ap/.

\section*{Academic Performance Index Ranks - Three-Year Comparison}

This table displays the school's statewide and similar schools' API ranks. The statewide API rank ranges from 1 to 10. A statewide rank of 1 means that the school has an API score in the lowest ten percent of all schools in the state, while a statewide rank of 10 means that the school has an API score in the highest ten percent of all schools in the state.

The similar schools API rank reflects how a school compares to 100 statistically matched "similar schools." A similar schools rank of 1 means that the school's academic performance is comparable to the lowest performing ten schools of the 100 similar schools, while a similar schools rank of 10 means that the school's academic performance is better than at least 90 of the 100 similar schools.
\begin{tabular}{|c|c|c|c|}
\hline API Rank & 2008 & 2009 & 2010 \\
\hline Statewide & & 8 & 5 \\
\hline Similar Schools & N/A & & 5 \\

\end{tabular}

Note: "N/D" means that no data were available to the CDE or LEA to report. "B" means the school did not have a valid API Base and there is no Growth or target information. "C" means the school had significant demographic changes and there is no Growth or target information.

\section*{Academic Performance Index Growth by Student Group - 2011 Growth API Comparison}

This table displays, by student group, the number of students included in the API and the 2011 Growth API at the school, LEA, and state level.

\hline
\end{tabular}

\section*{Adequate Yearly Progress}

The federal ESEA requires that all schools and districts meet the following Adequate Yearly Progress (AYP) criteria:
- Participation rate on the state's standards-based assessments in ELA and mathematics
- Percent proficient on the state's standards-based assessments in ELA and mathematics
- API as an additional indicator
- Graduation rate (for secondary schools)

For detailed information about AYP, including participation rates and percent proficient results by student group, see the CDE AYP Web page at http://www.cde.ca.gov/ta/ac/ay/.

\section*{Adequate Yearly Progress Overall and by Criteria (School Year 2010-11)}

\end{tabular}

\section*{Federal Intervention Program (School Year 2011-12)}

Schools and districts receiving federal Title I funding enter Program Improvement (PI) if they do not make AYP for two consecutive years in the same content area (ELA or mathematics) or on the same indicator (API or graduation rate). After entering PI, schools and districts advance to the next level of intervention with each additional year that they do not make AYP. For detailed information about PI identification, see the CDE PI Status Determinations Web page: http:// www.cde.ca.gov/ta/ac/ay/tidetermine.asp.

XI. School Completion and Postsecondary Preparation
}

\section*{Admission Requirements for California's Public Universities}

\section*{University of California}

Admission requirements for the University of California (UC) follow guidelines set forth in the Master Plan, which requires that the top one-eighth of the state's high school graduates, as well as those transfer students who have successfully completed specified college course work, be eligible for admission to the UC. These requirements are designed to ensure that all eligible students are adequately prepared for University-level work. For general admissions requirements, please visit the UC Admissions Information Web page at http://www. universityofcalifornia.edu/admissions/. (Outside source)

\section*{California State University}

Eligibility for admission to the California State University (CSU) is determined by three factors:
- Specific high school courses
- Grades in specified courses and test scores
- Graduation from high school

Some campuses have higher standards for particular majors or students who live outside the local campus area. Because of the number of students who apply, a few campuses have higher standards (supplementary admission criteria) for all applicants. Most CSU campuses have local admission guarantee policies for students who graduate or transfer from high schools and colleges that are historically served by a CSU campus in that region. For admission, application, and fee information see the CSU Web page at http://www.calstate.edu/admission/admission.shtml. (Outside source)

\section*{XII. Instructional Planning and Scheduling}

\section*{Professional Development}

This section provides information on the annual number of school days dedicated to staff development for the most recent three-year period.

Professional development reflects the annual goals in the School Improvement Plan, WASC report, AP Challenge Grant and Digital High School Plan. Staff are encouraged to attend conferences, workshops, and seminars to improve instruction within their discipline and share insights with staff. The staff has also been encouraged to use peer observation and support to improve instructional strategies.```
