

## IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER

Este informe contiene información muy importante sobre su agua potable.  
Tradúzcalo o hable con alguien que lo entienda bien.

### MONITORING REQUIREMENTS NOT MET FOR GEYSERVILLE NEW TECH ACADEMY

Our water system failed to monitor as required for drinking water standards during the past year and, therefore, was in violation of the regulations. Even though this failure was not an emergency, as our customers, you have a right to know what you should do, what happened, and what we did to correct this situation.

We are required to monitor your drinking water for specific contaminants on a regular basis. Results of regular monitoring are an indicator of whether or not our drinking water meets health standards. During the time prior to October 2020, we failed to collect the required 3 volatile organic chemical samples from Well 01 for 1,1,1-Trichloroethane, 1,1,2,2-Tetrachloroethane, 1,1,2-Trichloroethane, 1,1-Dichloroethane, 1,1-Dichloroethylene and therefore, cannot be sure of the quality of our drinking water during that time.

#### What should I do?

- There is nothing you need to do at this time.
- The table below lists the contaminant(s) we did not properly test for during the last year, how many samples we are required to take and how often, how many samples we took, when samples should have been taken, and the date on which follow-up samples were (or will be) taken.

Contaminant	Required Sampling Frequency	Number of Samples Taken	When All Samples Should Have Been Taken	When Samples Were or Will Be Taken
1,1,1-Trichloroethane	One sample every six years	none	October 2020	April 2021
1,1,2,2-Tetrachloroethane	One sample every six years	none	October 2020	April 2021
1,1,2-Trichloroethane	One sample every six years	none	October 2020	April 2021
1,1-Dichloroethane	One sample every six years	none	October 2020	April 2021

1,1-Dichloroethene	One sample every six years	none	October 2020	April 2021
--------------------	----------------------------	------	--------------	------------

- If you have health issues concerning the consumption of this water, you may wish to consult your doctor.

### **What happened? What is being done?**

We plan to take the required samples soon, as described in the last column of the table above.

For more information, please contact Jason Lish at 707-857-3592] or 1300 Moody Lane, Geyserville, CA 95441.

Please share this information with all the other people who drink this water, especially those who may not have received this notice directly (for example, people in apartments, nursing homes, schools, and businesses). You can do this by posting this public notice in a public place or distributing copies by hand or mail.

### **Secondary Notification Requirements**

Upon receipt of notification from a person operating a public water system, the following notification must be given within 10 days [Health and Safety Code Section 116450(g)]:

- SCHOOLS: Must notify school employees, students, and parents (if the students are minors).
- RESIDENTIAL RENTAL PROPERTY OWNERS OR MANAGERS (including nursing homes and care facilities): Must notify tenants.
- BUSINESS PROPERTY OWNERS, MANAGERS, OR OPERATORS: Must notify employees of businesses located on the property.
